ABOUT CIM ...

The Canadian Institute of Mining, Metallurgy and Petroleum (CIM) is the leading professional association for the minerals industry with more than 10,000 members across Canada and globally. CIM is dedicated to the advancement of knowledge as well as the promotion of networking, innovation and sustainable practices for the mining industry.

- Local Northern Gateway Branch of CIM was founded in 1977.
- Northern Gateway was the first branch to support the Mining Teachers Tour, now a nationally recognized program.
- Dedication to developing young talent resulted in Northern Gateway being the first branch to formally recognize Young Professionals within the industry.
- Northern Gateway Branch is the 6th largest branch in Canada by member participation.
- CIM announces past president of the Northern Gateway Branch, Roy Slack, as the Incoming President Elect assuming the role in 2019.
